

Remote Concierge Station

Live, Virtual Reception Technology

The remote concierge station offers your organization the ability to staff key locations without having an employee on site. This solution provides the personal touch of a life-size, live interaction without risking employee exposure.

Advantages of a Remote Concierge

- Utilize a remote worker to keep staff safe
- Allow receptionist to work from anywhere
- Maintain live face-to-face communication
- 40" and 50" displays offer life-size interaction
- Doubles as a digital signage solution
- Rolling cart allows for a mobile conference station
- Intuitive technology ready for rapid deployment

Remote Concierge Station

Live, Virtual Reception Technology

As we return to our new normal, the remote concierge station is an effective solution to protect front desk employees as they interact with the public. The brilliant, large format professional display, soundbar and high-resolution camera provide the next best thing to face-to-face human interaction. An ideal solution for virtually any lobby or front desk environment.

Contact a Sharp representative to discover more about the remote concierge station.
